

Biker Wales Rideout Route Database

Fed up of riding the same old routes?

Got a favourite route you want to tell people about?

We'll visit the all new Biker Wales Rideout Routes database where you can:

- share your rideout route with everyone else
- maybe find somewhere different to go this summer
- or use it to plan your next group ride.

Each Rideout Route sheet contains an Overview Map, Detailed Directions, and a Route Points Of Interest sections (food and fuel stops, and any other information, e.g. speed cameras), and can be either viewed online, downloaded or printed out to take with you on your ride. There is a Find Route section that provides a search function to lookup routes that passes through places you might be interested in, and a Suggest Route section from which you can submit new routes to the database or suggest an amendment to an existing route.

To view the database, just sign up and log into BikerWales.com Biker Forum and select the Rideout Route link from the menu on the left.

PS Thanks to Stewie (and Mrs. Stewie!) for all the work in helping to design this section and producing the sheets.
