

Which Bike Cam?

Bumpkin and openroad have been experimenting with video cameras to find out how to get the best footage at the best price!

To get some tips and see how they're getting on take a look in the General Non-Bike Chat / bought myself a bike camera thread on our Biker Forum.

PS Beware - if you're buying a bike camera don't buy one from simply electronics see here and here for the reasons why - you have been warned!!!
